My goal is to build meaningful and functional products that really work with extensive skills in SAAS, web, and mobile design. I'm passionate about design, new technology, and creating user-friendly, intuitive digital products and interfaces.

Work Experience

Altcom LLC
Sr. UI/UX Designer
August *2022 to July 2024*
My role is to design Mobile Applications, E-commerce Websites, Business to Consumer Applications.

Sheba Platform Limited
Product Designer
January *2022 to August 2022*
My role was to design mobile applications from scratch in **sManager** app. The newly designed and developed new upcoming and some existing features should be functional, simple, intuitive, innovative, easy to use, and conversion-friendly product research & design process. Including conducting design sprints, user interviews, usability testing, and UI design.
Improve in sManager: Top-up, Digital collection and EMI

Newroz Technology Limited
UI/UX Designer
August 2021 to February 2022
Globpay: My role was to design mobile applications from scratch in **Globpay** mobile app. GlobPay is a fintech organization registered with FINTRAC, Canada that helps people to transfer their money globally at the cheapest cost.

Deshi-Pay: My role was to design mobile applications from scratch in Deshi-Pay mobile app. It connects to the digital finance ecosystem. It helps in consumer payments, Lending, Banking, Personal/Business finances through streamlined experiences.

Nurency Digital Agency
UI/UX Designer
November *2019 to August 2021*
My role was to design mobile applications, Websites, and SAAS applications for different platforms E-commerce, LMS, Task Management, Shopify theme
